

Tuesday, February 17, 2015

The regular meeting of the Humboldt County Board of Commissioners was called to order on Tuesday, February 17, 2015, at 9:30 a.m. in the regular place of meeting at the Courthouse, Winnemucca, Nevada. Those present were Chairman Garley Amos, Jr., Commissioners Marlene Brissenden, Mike Bell, Jim French and Ron Cerri, District Attorney Michael Macdonald, Administrator Dave Mendiola and Clerk of the Board Tami Rae Spero.

PUBLIC COMMENTS: Chairman Amos asked for public comments. None were offered.

DISCUSSION & ACTION ON CORRECTION/APPROVAL OF MINUTES - OCTOBER 20, 2014; NOVEMBER 10, 2014; NOVEMBER 24, 2014; DECEMBER 15, 2014; & JANUARY 5, 2015; JANUARY 20, 2015; FEBRUARY 2, 2015 REGULAR MEETINGS & NOVEMBER 14, 2014; DECEMBER 2, 2014; & JANUARY 26, 2015 SPECIAL MEETINGS: Chairman Amos asked

for corrections/additions for the minutes of October 20, 2014; none offered. The following motion was made by Commissioner Brissenden and passed with Chairman Amos and Commissioners Brissenden, Bell and French voting aye and Commissioner Cerri abstaining as he had not been on the Board on that date:

To approve minutes for October 20, 2014 as presented.

Chairman Amos asked for corrections/additions for the minutes of December 15, 2014; Commissioner Brissenden offered grammar corrections to pages 9 and 11. The following motion was made by Commissioner Brissenden and passed with Chairman Amos and Commissioners Brissenden, Bell and French voting aye and Commissioner Cerri abstaining as he had not been on the Board on that date:

To approve the December 15, 2014 minutes as amended.

ADMINISTRATIVE REPORT:

CONSENT AGENDA: The following items were presented under the consent agenda by Administrator Mendiola for the Board's review/action:

1. County Clerk Statistical Report for 4th Quarter 2014: A copy of the Clerk's 4th quarter statistical report was provided to the Board for review. *Recommendation: That the Commission accept the report as submitted.*
2. Appointments to various Boards and Committees: *Recommendation: That the Commission approve the re-appointment of the Board members.*
 - Orovada Rodent Control Board - Jean Williams (re-appointment)
 - Orovada Volunteer Fire District - Randy McClintick (re-appointment)

02/17/2015

Page 1 of 9

Paradise Valley Fire District - Daniel Ferraro & Stan Thompson (re-appointment)

3. Intrastate Interlocal Agreement between the Nevada Department of Health and Human Services Aging and Disabilities in Humboldt County for provision of services for children with intellectual disabilities in Humboldt County: A copy of the proposed agreement was provided to the Board for review. *Recommendation: That the Commission adopt and approve the Chairman to sign the agreement.*

The following motion was made by Commission French and passed unanimously:

To accept the consent agenda as presented.

SOLID WASTE MATTERS: Administrator Mendiola stated that he had nothing on this item.

PUBLIC LANDS PLANNING MATTERS & FORMULATION OF COUNTY POSITION ON BLM, FOREST SERVICE AND THE FEDERAL FISH AND WILDLIFE SERVICE PROPOSED

ACTIONS: Administrator Mendiola stated that he had nothing on this item.

MISCELLANEOUS REPORTS AND CORRESPONDENCE:

OTHER INFORMATION AND UPCOMING MEETINGS: Commissioner Bell informed the Board that the former Administrator, Bill Deist had contacted him regarding a CD he had received at his retirement party which had been given to him by someone who indicated that it was from Commissioner Brissenden and that the contents of the CD had upset both he and his wife due to its content and the message being expressed, he had indicated that he did not know what to do about it but that he wanted to bring it to a Commissioner's attention; Commissioner Bell continued bringing the Board's attention to Chapter 2.13 of the Humboldt County Code related to the ethical standards that the Board members are to abide by and he urged his fellow Commissioners to join him in condemning the actions of Commissioner Brissenden and he strongly suggested that Commissioner Brissenden publically apologize to Mr. and Mrs. Bill Deist, the Humboldt County Commission and the public for her actions. Chairman Amos asked for comments. Commissioner Bell asked the Commissioners to weigh in on the issue as he does not think it is okay and he would like to know the opinion of the others. Chairman Amos stated that he did not feel it was okay however he thinks it is very frivolous and he believes if the Commissioners would apply their energy towards the Commission and the work, they would be better Commissioners and be able to do a better job and that would be better for the community and the county. Commissioner French commented that he feels sadness and also wonders why the resources and time are being used for something like this; he suggested that if Mr. Deist is offended by something that was meant as a joke he should take it up with the person that gave it to him. Commissioner Cerri stated that he believes it is unfortunate that it happened the way it did and he does not like what happened but he observed that now is a new year, a

02/17/2015

Page 2 of 9

new commission and a new administrator so we need to move on; he also offered that if Mr. Deist does not want to do something about it, he does not know what the Commission can do. Commissioner Bell agreed that there was not anything the Board could do but commented that the Board holds the people who work for the County to a high standard so he believes the Commission should hold themselves to that same high standard; he continued stating that he believes these comments will fall on deaf ears but that he wanted to go on the record as condemning these actions.

REPORTS FROM COMMISSIONERS REGARDING OTHER BOARDS AND COMMITTEES

THEY SERVE ON: Commissioner Brissenden reported on a Paradise Conservation District meeting she had attended at which they had established their priorities, the Lincoln Day Dinner and a water workshop. Commissioner French discussed a Nevada Works Board meeting that he had attended.

CLAIMS FOR EXPENDITURES OF COUNTY FUNDS: The following motion was made by Commissioner French and passed unanimously:

To accept the expenditures as presented.

UPDATE TO SECTION 5 - COMPENSATION PLAN AND SECTION 8 - TRAVEL EXPENSES

OF THE HUMBOLDT COUNTY PERSONNEL POLICY: Copies of Section 5 and Section 8 with the amendments indicated were provided to the Commission for review. Brenda Willey, Administrative Assistant appeared before the Commission to review the proposed changes. The changes reviewed included Section 5 - Compensation Plan including a language change in section 5.12.3 related to employees working out of class which had been previously amended but was now reverting back to POOL/PACT's preferred language and changes to Section 8 - Travel Expenses which included an increase to the amounts paid for travel expenses and allowed for those amounts to be established through the policies and procedures rather than by resolution which had been done in the past. Commissioner French asked what the rationale was with reverting back to the POOL/PACT language for the working out of class section. Ms. Willey reviewed what had occurred related to her serving in the County Administrator's position while the prior Administrator was out of the office and how the change had been made related to that situation; she explained that the change was made because of that one situation and POOL/PACT's recommendation was to return to the prior language. After discussion the following motion was made by Commissioner French and passed unanimously:

To accept the proposal for the update in Section Five of the Compensation Plan and in Section Eight of the Travel Expenses of the Humboldt County Personnel Policy as presented.

REQUEST FROM DISTRICT ATTORNEY'S OFFICE FOR APPROVAL OF OVERTIME FOR

02/17/2015

Page 3 of 9

THE CHILD SUPPORT DIVISION TO COMPLETE SCANNING OF FILES INTO THE COUNTY SYSTEM. ALL FUNDS UTILIZED BY THE COUNTY ARE 100% REIMBURSED BY THE STATE OF NEVADA:

Brenda Dial, Child Support Coordinator, appeared before the Board and explained the request for approval of overtime for her staff to complete scanning of files into the county system including that she had requested that up to \$51,615.00 be reimbursed to the County out of the incentive funds available to the program and that the amount would cover up to four Saturdays per month, five employees, eight hours a day for eleven months though that is the estimate is probably high as she does not believe she will have five employees working every Saturday. District Attorney Macdonald commented on this being a State requirement that is being placed on local enforcement agencies. Commissioner French asked if this would be a stand alone project that the overtime will be used for. Coordinator Dial stated that is correct. The following motion was made by Commissioner Bell and passed unanimously:

To approve the overtime requested from the Child Support Division to complete their scanning.

ROAD MATTERS: Road Superintendent Ben Garrett appeared before the Board.

POSSIBLE AWARD OF BID FOR MAGNESIUM CHLORIDE PROJECT: Provided to the Board for review were a memo from the Road Superintendent detailing the bids received from Envirotech Services, Western Emulsion, PZS Stabilization and Global Stabilization and offering the recommendation to use a combination of traditional Magnesium Chloride and Durablend application with the bid being awarded to Envirotech (see attached) and a copy of the Magnesium Chloride -Durablend Schedule Projections 2015. Superintendent Garrett reviewed the bids submitted to the Board. He continued reviewing the responses received from letters sent to residents in the Rainbow Road/Stratus Road area (82 sent, 10 responses, 50/50 result) and the Sand dunes area (230 sent, 6 responses, 4 opposed to mag, 2 in favor of mag) asking input from the residents about the use of mag chloride on their roads. Debra Lyon a resident of the Lambert area appeared before the Board and spoke in opposition to the use of mag chloride on roads in her area; she requested that the roads be paved like the roads in the Paradise Ranchos area. Superintendent Garrett noted that the roads in the Paradise Ranchos area are not paved, that the County was fortunate to obtain grindings from the State when Paradise Summit was paved and those had been applied to the roads, that if it had not been for those grindings, that would not have been done due to the cost of paving. Chairman Amos noted that some of the roads are done due to requirements set forth by the Nevada Division of Environmental Protection to keep the dust down and the only way to do that in a cost effective manner is to use mag but he does understand the concerns related to mag. Commissioner

02/17/2015

Page 4 of 9

Bell asked about the use of the durablend product. Superintendent Garrett explained that the durablend is used with the mag to keep it from leaching away and that it has been used in the sand dunes area; he commented on the issues created by the lack of a hard freeze this year on the mag. Commissioner Brissenden asked about the reduction in the number of roads that will have the durablend. Superintendent Garrett explained that cost was a part of it but also once the polymer is on the road it will not dissipate right away so it is a balancing act of when to reapply it. Commissioner Brissenden asked about the testing of ERA. Superintendent Garrett responded that it showed some promise and he has requested to apply it again to Conservation, Davis and Cyanco which will cost an additional \$21,000.00 but he noted that if the sand dunes area and the Rainbow/Stratus area are not done that will save \$10,800.00. He commented on the ability to look at skipping applications as the roads may hold up for a year or so but if it is determined that product is needed that can occur later; he continued commenting on the current conditions of the Sand Dunes roads. Based on questions from Commissioner Cerri, Superintendent Garrett explained how the roads that are treated are selected, what can happen with the dust on gravel roads and the resulting issues that the NDEP has had concerns about. Richard Pellet a resident of Rainbow Road appeared before the Board and commented on the new road base that had been put in a few years ago and the use of mag chloride and how that has created a serious mud problem. Superintendent Garrett responded to Mr. Pellet's concerns including discussing the base material used, the effect of mag chloride on different roads and what influences those effects. Mr. Pellet suggested there has got to be a solution that does not involve the use of mag chloride. Superintendent Garrett suggested that, if the sand dunes area and the Rainbow/Stratus areas are removed from the mag schedule we can see if the dust can be controlled without doing an application this year and then see where it stands for next year. The Board concurred. The following motion was made by Commissioner Bell and passed unanimously:

To award the bid to Emyntech in the amount of \$145,232.70.

The following motion was made by Commissioner Bell and passed unanimously:

For the \$21,250.00 for the special projects line item for Western Emulsion for Conservation, Davis and Cyanco.

REPORT OF PENDING ROAD DEPARTMENT PROJECTS: Superintendent Garrett reported on road grading, covering, cattle guard installations, culvert installations and crack sealing. Superintendent Garrett informed the Board that no letter requesting abandonment had been received regarding the possible abandonment of a portion of Codr Road that had been set for public hearing at the February 2nd meeting, so he would recommend canceling that public hearing. Commissioner Cerri commented that he

02/17/2015

Page 5 of 9

had spoken to the person who had made the request and some of the neighbors of that person and after that discussion he believes that the person requesting will just let the matter go as it is not a popular suggestion to close that road. Commissioner Bell agreed noting conversations that he had expressing the same concerns. Discussion occurred as to whether a motion was required and whether it could be done under this agenda item; the Board and District Attorney agreed that it would be covered by the discussion and action item for Road Projects. Commissioner Bell offered the following motion which passed unanimously:

To not set to public hearing the abandonment on Codr Road.

Commissioner Cerri asked about the culvert being installed on Valley Road and noted concerns about it. Superintendent Garrett responded.

MISCELLANEOUS ROAD RELATED MATTERS: None offered.

RSVP REQUEST FOR COUNTY FUNDS TO SUPPORT FRAIL, HOMEBOUND AND LOW - INCOME SENIORS REMAIN INDEPENDENT BY PROVIDING HIGH QUALITY PROGRAMS WHICH ALLOW THEM TO STAY IN THEIR HOMES WITH DIGNITY: Provided to the Board

for review was a letter of request from Nevada Rural Counties RSVP Program Inc. Executive Director and C.E.O. Susan C. Haas which detailed the services offered in Humboldt County and asked for a contribution from the County of \$9,668.00. Commissioner Bell noted that this is something that is done annually and that this item needs to be included in the budget hearings as a line item is already identified for it. The Board concurred. Discussion occurred regarding the increase to the amount from last year. Administrator Mendiola commented that he is compiling a list of the different requests that the Commission regularly receives during the year for funding so that the Commission can look at it in total rather than as individual requests to see the actual fiscal impact to the budget.

CONSIDERATION OF AGREEMENT (PHASE 1) FOR PROFESSIONAL CONSULTING SERVICES BETWEEN CSI TELECOMMUNICATIONS, INC. AND HUMBOLDT COUNTY RELATED TO IMPLEMENTATION OF CSI COMMUNICATIONS, INC. REPORT: Provided to

the Board for review was the proposed Agreement for Professional Consulting Services CSI Telecommunications Inc. Ric Grantham of the Communications Department appeared before the Board. Administrator Mendiola noted that this had been discussed previously by the Commission as it is phase one of the CSI Report that the Commission had supported but there had been a few issues with it but those issues have been worked out by the District Attorney and everyone is in agreement and so now it is again before the Board for final approval; he noted that this is essentially for professional and consulting services to begin the process. Commissioner Cerri asked about the amounts included in the agreement.

02/17/2015

Page 6 of 9

Administrator Mendiola reviewed the projected costs. Commissioner French referred to the contract that the Commission had seen last time and noted that he did not see any substantial changes; he asked Mr. Grantham about his opinion. Mr. Grantham responded to the question noting that, as there are only a few months left in this year, the items may be curtailed a bit but the FCC licensing and such will be done. The following motion was made by Commissioner French:

To accept the agreement for the CSI contract as presented.

Commissioner Cerri asked for clarification as to how the travel expenses are handled. Mr. Grantham responded and discussion occurred. Chairman Amos called Commissioner French's motion to a vote and it passed unanimously.

NEVADA BOARD OF WILDLIFE (NDOW) COMMISSIONERS PLAN TO INITIATE A NEW ELK SUB-PLANNING IN ACCORDANCE WITH THE NEVADA ELK SPECIES MANAGEMENT PLAN: Provided to the Board for review was a copy of the Nevada Department of Wildlife's Elk Sub-Plan Initiation and Elk Sub-Plan Revision Process and a copy of the Nevada State Elk Species Management Plan. Ed Partee, Wildlife Biologist with the Humboldt County office of NDOW appeared before the Board and reviewed the process for initiating a new elk plan in Humboldt County; he requested that the Commissioners come up with recommendations for people to serve on the associated committee. Discussion ensued.

A RESOLUTION ESTABLISHING THE LIST OF QUALIFIED APPRAISERS TO BE UTILIZED WHEN IT IS NECESSARY FOR PROPERTY OF THE COUNTY TO BE APPRAISED PRIOR TO SALE OR LEASE: District Attorney Macdonald informed the Commission that this item was premature as the list has not yet been drafted so he recommended that no action be taken at this time. The Board concurred.

REVIEW AND POSSIBLE SETTLEMENT OF CLAIM BY CHRISTOPHER PAUL MILLER & DIANE CAROL MARIE MILLER AGAINST HUMBOLDT COUNTY FOR THE ENCROACHMENT BY THE COUNTY AND THE WINNEMUCCA TRAP CLUB UPON THE ADJACENT PROPERTY BELONGING TO THE MILLERS, COMMONLY KNOWN AS THE WESO PROPERTY, AT THE END OF EAST SECOND STREET, WINNEMUCCA, NEVADA, INCLUDING AUTHORIZATION TO EXECUTE A SETTLEMENT AGREEMENT, DEED, AND ANY OTHER DOCUMENTS NECESSARY TO RESOLVE THE MATTER AND TO AUTHORIZE COMPENSATION FOR THE PROPERTY TO BE ACQUIRED BY THE COUNTY AS PART OF THE SETTLEMENT: District Attorney Macdonald explained that this settlement had been handled previously but that an additional question had arisen and as he was unsure

02/17/2015

Page 7 of 9

whether the resolution of that question would require Commission action, he had placed this item on the agenda but the question had been resolved so no further action was required by the Board. The Board concurred.

REQUEST FROM MCDERMITT FIRE DISTRICT AS SUB-RECIPIENT TO DE-OBLIGATE THE REMAINING CDBG FUNDS FROM THE 2013 MCDERMITT COMMUNITY SERVICES

MULTIPLEX PROJECT: Provided to the Board for review was a copy of a letter from the McDermitt Fire Board explaining the request (see attached). Administrator Mendiola explained that the Board had went out to bid on two occasions for the McDermitt Community Services Multiplex Project but both times the bids came in over the amount budgeted for the project so the Board had decided to not proceed with the project and they are requesting that the Commission de-obligate the remaining 2013 CDBG grant funds identified for this project. Commissioner French asked if there had been any consideration to re-designing the project as the need is still there. Brenda Willey, Commissioner Administrative Assistant, appeared before the Board and explained that this project has been ongoing since 2013, that the Board has changed since this project was originally proposed, that the biggest challenge has been the bids, that even the last bid that was over had not included the entire project and that the bids contained so many exceptions that the project would not have been completed; she observed that it is not unreasonable for the Fire District to decide that they would like to de-obligate these funds as they do not believe they are in a position to find a contractor that will perform the work in its entirety to complete the project and noted deadlines related to CDBG funds as well as the CDBG committee's knowledge of the action proposed today and their plan for using these funds for future awards. Ms. Willey noted that the current Board does not appear to have any interest in pursuing the project further but there are no restrictions on seeking the grant funding again in the future. After discussion the following motion was made by Commissioner French and passed unanimously:

To accept the request on behalf of the McDermitt Fire District to de-obligate the remaining CDBG funds from the 2013 McDermitt Community Services Multiplex Project.

PUBLIC COMMENT: Chairman Amos asked for public comments. Gina Rackley, County Treasurer, appeared before the Commission to let them know that Assemblyman Ira Hansen's son-in-law had passed away and to suggest that the County send a sympathy card. Commissioner French asked Administrator Mendiola to put something together. Clinton Norris commented from the audience about issues with Kathy Road and traffic including ATVs. Commissioner Cerri asked about legislative updates and discussion ensued about the process as well as the Nevada Associations of Counties (NACO) involvement. No further public comment offered.

02/17/2015

Page 8 of 9

ADJOURNMENT: Chairman Amos adjourned the meeting at 11:03 a.m.

ATTESTED: J. Spero Clerk APPROVED: Andy Amos Chairman

(Minutes approved by the Commission and signed by the Chairman on 5-28-2015)

UNOFFICIAL

To: County Commission
 From: Ben Garrett, Roads Superintendent
 Date: February 9, 2015
 Subject: Magnesium Chloride Bid 2015

Bid Results:

We solicited bids from nineteen vendors for the Magnesium Chloride application or approved alternative. One vendor submitted a bid for Magnesium Chloride and Durablend (a Magnesium Chloride-Polymer Blend) with the vendor providing the application. Humboldt County product application was an option available to the solicited vendors. Three vendors submitted bids for an alternative product.

- 1) ENVIROTECH SERVICES (Greely, Colorado): The bid ranged from \$107.67 per ton for Magnesium Chloride Humboldt County applied to \$116.17 per ton vendor applied. Product bid was Magnesium Chloride. The total bid as posted was \$230,266.85 vendor applied and \$213,418.52 with Humboldt County supplying the application. ENVIROTECH SERVICES (Greely, Colorado): The bid for an alternative product ranged from \$179.36 per ton for Humboldt County, applied to \$187.86 per ton for vendor applied. The Product bid was DURABLEND (Magnesium Chloride-Polymer blend). The total bid as posted was \$223,382.91 vendor applied and \$213,275.62 with Humboldt County supplying the application.
- 2) WESTERN EMULSION (Dana Point, California): The vendor supplied bids for alternative products only. One product is named ERA-1; an asphalt emulsion with polymers for stability, a rejuvenating agent for flexibility and proprietary properties. A suggested application rate of .35 gallons per square yard is stipulated in the bid. The second product specified is PASS-ER with similar properties to ERA-1. The ERA-1 bid price per ton is \$295, while the PASS-ER is \$295 per ton. The entire bid calls for Humboldt County's equipment to apply the product. An option is available for a contracted distributor truck at \$400 per hour.
- 3) PZS Stabilization (St. Helena, Ca.): The vendor bid an alternative product to the Magnesium Chloride. The product is Pennz Suppress D at a cost of \$7.00 per gallon with an application rate of .15 gallons per square yard with an additional .10 gallons per square yard topically applied. The total bid for the entire project is 131,606 gallons at \$921,242.00. The product is an asphalt emulsion.
- 4) Global Stabilization (Port St. Lucie, Fl.): The product bid is EarthBind-100, an alternative to Magnesium Chloride. EarthBind-100 is an asphalt emulsion. The recommended application rate is .15 gallons per square yard with an additional .10 gallons per square yard topically applied. The total bid for the entire project is 131,611 gallons at \$776,505.20.

Several suppliers inquired prior to solicitation for bids, however only four responded.

Application Areas and Rates:

Humboldt County has adjusted the application rates and the products depending on the observed retention from year to year. In the past we reduced the width of the coverage from 24 feet to 18 feet, which reduced the cost significantly. At the same time our coverage mileage increased from 44 centerline miles of road to 67 miles of roadway treated, which offset the savings from the width reduction. Since 2008 the cost of Magnesium Chloride has increased at an annual rate of 7-10% until 2014. The increase in 2015 was less than 1%.

The treatment proposals from the vendors varied in recommended rates. The application rate for the Magnesium Chloride is .50 gallons per square yard, while the DURABLEND is .25 gallons per square yard. All the Asphalt Emulsion products have an application rate after the water evaporates of .15-.21 gallons per square yard, but require a topical application of .10 gallons per square yard residual.

The cost of the Magnesium Chloride is \$.63 per gallon or \$.31 per square yard at the recommended application rate. The DURABLEND cost \$1.02 per gallon or \$.25 per square yard. The Asphalt Emulsion products vary in price per gallon from \$1.23-1.75. The recommended residual rates varied from .21 gallons per square yard to .15 gallons per square yard. The overall cost per square yard ranges from \$.43 per square yard to \$.62 per square yard.

We solicited the opinions on the application of Magnesium Chloride from the residents of the Sand Dunes and the Stratus area. In the Sand Dunes area 230 letters were sent to the property owners. Approximately 12 were returned as undeliverable. The response was minimal, 4 indicated No Mag and 2 responses were favored Continue the Application. In the Stratus area 82 letters were sent out. The response was slightly better with 5 No Mag and 4 Continue the Mag.

Recommendations:

I recommend a combination of traditional Magnesium Chloride and Durablend application, as laid out in the attachment with the bid awarded to ENVIROTECH. The cost for a combination award would be \$145,232.70. The pricing includes the Sand Dunes and the Stratus area, if these areas are removed from the project an additional \$10,812.73. The funding is allocated in our Dust Control line item of the current budget. In the previous year the Road Department began testing alternative products on Conservation, Davis and Cyanco. I would recommend continuing the evaluation process for an additional \$21,250.00 from our Special Projects line item.

Humboldt County Board of Commissioners
50 West Fifth Street
Winnemucca, Nevada 89445

RE: CDBG for McDermitt Fire District

February 6, 2015,

The McDermitt Fire Board received a Community Development Block Grant in 2013 for a total of \$233,000 (\$26,820 for Engineering and Architectural, and \$206,180 for Construction). The grant was awarded to build a 39'x 40' addition to the northwest side of the fire department building, connecting to the existing structure.

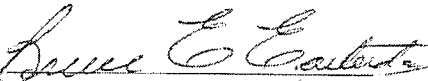

The grant also included; separate electrical system meters, HCAC system, signage, 24' x 100' apron along the site location, exhaust venting, an extra door added to the Humboldt County Sheriff's Office McDermitt substation, and a section of concrete sidewalk.

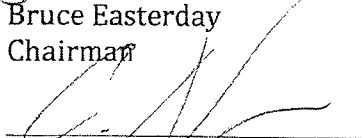

This project was advertised and put to bid twice. The first bid was received on September 17, 2014 was from Z7 Development for \$297,793, over budget by \$91,613. After being advertised a second time, the Board received a second bid on November 17, 2014 from Michael Clay Construction for \$284,000, over budget by \$77,820.

Because the Board has not received a bid within budget after advertising the project twice, the Board is recommending that the Humboldt County Board of Commissioners de obligate the remaining 2013 McDermitt Community Services Multiplex CDBG grant funds. The Board has paid Iridium Consulting a total of \$16,580, which leaves a remaining \$216,420 that we are asking be de obligated.

Thanks for your consideration,

The McDermitt Fire Board

Bruce Easterday
Chairman

Casey Negus
Secretary

Hank Kershner
Fire Chief
